

Seminar Invitation

View the most energy efficient data centre in Britain

Independent data centre specialists Keysource invite you to view the UK's most efficient data centre.

Keysource engineers have re-invented the data centre cooling concept to deliver an annualised Power Usage Effectiveness (PUE) figure of under 1.2 for the first time in the UK. Having won three industry awards for this data centre in 2009, Petroleum Geo-Services (PGS) are delighted with the results of the project and have given us the opportunity to reveal details of the design and construction to a small number of specially invited guests. You will receive advice on approaches to improving efficiency while being able to accommodate high density servers of up to 30 kW per rack position.

Hosted by: Keysource and Petroleum Geo-Services (PGS)

Date: 20th October 2010

Venue: Mercedes Benz World's Theatre Suite, Brooklands, Weybridge, Surrey, KT13 0SL

Time: 9am – 12.30pm or 1pm – 4.30pm

Agenda

Please choose between attending the AM (9-12.30) or PM (1-4.30) session

09.00/13.00: Arrive at Mercedes Benz World – Registration and refreshments on arrival

09.30/13.30: Client Case Study: Energy efficiency in the modern data centre

09:50/13.50: PUE: The importance of measurement and its impacts on design

10:15/14.15: PGS site demonstration

12:00/16.00: Back to MBW for Q&A and networking

Location: Mercedes-Benz World is just a few minutes from Junction 10 of the M25. Follow the A3 towards London taking the first exit and turn left at the roundabout onto the A245 (signposted to Weybridge). Continue along the A245 for approximately 1.5 miles. At the second roundabout turn right onto Sopwith Drive. Continue straight over two roundabouts, you have arrived at Mercedes-Benz World. Alternatively it is less than 1 mile from Weybridge station, on the London Waterloo and Woking Line.

Registration

This seminar will appeal to senior IT, Data Centre, Energy, Financial or Facilities Managers. You will leave the seminar with a greater understanding of the issues that need to be considered when designing, building or refurbishing data centres or server rooms in relation to power, cooling, airflow, efficiency, financial savings and other M+E considerations. To register your interest in this seminar please phone Amy Parcell today on **0845 204 3333** or email amy.parcell@keysource.co.uk.

Winner of 'Innovation in the medium data centre' at the 2009 Datacenter Leaders Awards

Winner of 'Environmental Project of the Year' at the 2009 UK IT Industry Awards

Winner of 'Green IT Innovation of the Year' at the 2009 Information Age Awards
